PROJECTS

CRYPTO TRACKER

- CryptoTracker is a web tool developed with JavaScript, ExpressJS, Halfmoon Bootstrap, Axios, and Cheerio, offering a user-friendly interface.

- Users can browse the statistics of the top 10 cryptocurrencies in real-time, complete with detailed information and a Dark-Light theme. The displayed data is sourced from the official Coin Market Cap API, ensuring accurate and up-to-date information.

CHAT CORD

- Chat Cord is a web application built with Express.js and Socket.io, offering chat functionality without storing messages in a database.

COMMENT MANAGEMENT SYSTEM

- This system manages user comments with timestamps and is developed using HTML, CSS, PHP, and a JSON file as the database.
